Welcome to Ukraine!

The more you know, the more you dare. Obviously, you can benefit from higher education. Graduates are in demand by employers the world over.

Like most countries in the world, Ukraine is also moving towards internationalizing its educational system, with courses currently taught in English in most universities.

To get the job you need to be competent, you should understand that skills are as vital as learning. Students will be immersed in Ukrainian culture and lifestyle that can only add to their educational and career development; conduct research and share their experience.

Sharpen your career in Ukraine!

University

The University ranks high positions in different ratings, in particular 500 QS World University Rankings, Times Higher Education World University Rankings 2015–2016. In the Department UNESCO rating the university ranks the third among all Ukrainian Higher Educational Institutions and the third position among Ukrainian Research and Educational Institutions by the number of articles published in the leading international scientific publications

Kharkiv University Center of International Students Training was created to help international students to prepare for studying. There you can learn Ukrainian language and more about the country.

Kharkiv

The second largest city in Ukraine is also called as a Student's City. One fifth of its population are students who are studying in numerous local universities. The whole range of subjects areas is represented.

The oldest and most famous university is V.N.Karazin Kharkiv National University. The University has rich history and welcomes students from all over the world. Tuition fees are affordable and that is why many students, seeking for high-level education, choose Kharkiv University.

Department

Theoretical and practical training takes place in university laboratories, rooms, Kharkiv regional school of young tourists, Museum of Nature, Ukrainian Scientific Research Institute of Ecological Problems.

Students study computer sciences and foreign languages (English, German, French, Chinese and others). There are two department laboratories where students prepare to classes, do research and use the Internet. They also use 750-books' of the Department's library stock to prepare for classes.

Students have practices: they visit Kharkiv's industrial enterprises and work at the geographical station “Gaydary” (1th year), visit Western Ukraine's cities (second year), take part in the teaching-research expedition to a district of Kharkiv region (3th year), have a pedagogical practice in Kharkiv's schools (3th and 4th years), visit and work at Kharkiv's research and local governmental institutions (5th year).

The Department holds the student discussion club, English Speaking Club for Human Geographers and two annual international scientific conferences.

Students often win scientific article competitions, get grants and awards from different organizations, participate in national and international scientific conferences, events, programs in Ukraine and abroad.

The department organizes holidays (Dedication to the students, The Student's Day, New Year, Alumnus' Day), different trips, excursions for students (Poland, Czech Republic, Austria, Hungary).

The best students attend PhD courses, write and defend their thesis during Academic Senate

Advanced students can study according their individual plan and gain working experience.
